as the first individual in history to drive a stock suspension car faster than 230 miles per hour. If that weren't impressive enough, wait until you hear that Willard was in his 80s at the time.

He certainly has a notable list of accomplishments, and Willard shows no plans to slow down any time soon. Last year, he celebrated his 90th birthday by winning a drag-racing championship at 175 miles per hour, In Willard's trophy room, which is packed with the many awards he has earned over a long career of achievement and thrill-seeking, a sign reads, "Life begins at 200 mph." It is a fitting motto for a man who never seems to take his foot off the gas pedal.

Willard's local community will continue to enjoy his many contributions and inspirational example for generations to come. I am pleased to see his incredible life be honored, and I would like to add my voice to the chorus of those praising this remarkable Kentuckian. I hope my Senate colleagues will join me in recognizing Willard Kinzer for a lifetime of achievement and to congratulate him on this honor.

TRIBUTE TO MAJOR GENERAL LUKE REINER

Mr. BARRASSO. Mr. President, today I wish to honor the service of the adjutant general of the Wyoming National Guard, MG Luke Reiner, to the State of Wyoming and our Nation.

In 1982, Major General Reiner enlisted in the Army National Guard. As a born leader, Luke was commissioned as an officer in 1986 and subsequently joined the Wyoming Army National Guard in 1987. Coming to Wyoming was the best decision of his career.

Major General Reiner wore many hats and served at every level of the Wyoming Army National Guard. From his first job as the counter fire officer of the 115th Field Artillery Brigade to the executive officer of the 2–300 Field Artillery Battalion, he rose to take command of the 115th Fires Brigade. Luke's operational experience included a deployment to Kuwait where he commanded Camp New York in support of Operation Iraqi Freedom.

Governor Matt Mead appointed Luke Reiner as adjutant general, and he took command on April 1, 2011. Luke and I got to know each other very well over years as we worked together to secure funding to modernize the C-130H fleet. Major General Reiner was the Wyoming Guard's advocate in Washington at the National Guard Bureau and the Pentagon. He frequently traveled back to Washington and served on various National Guard committees and counsels.

Every Thanksgiving, I travel overseas to visit with Wyoming servicemen and women deployed around the world. Governor Mead, Major General Reiner, and I spent Thanksgiving with the 133rd Engineering Company stationed in Bahrain in 2013. It was an honor to eat Thanksgiving dinner with these

young men and women alongside Major General Reiner.

On March 28, 2019, Luke will officially retire as Wyoming's adjutant general and hand the colors over to BG Gregory Porter. Major General Reiner will remain in Wyoming. I look forward to continue working closely with him in his role as director of the Wyoming Department of Transportation.

Luke epitomizes the "Code of the West." Live each day with courage. Take pride in your work. Do what needs to be done. We thank him for all he has done to keep Wyoming and our Nation safe.

Finally, I want to thank Luke's wife Devonna and his two daughters Heather and Holly for allowing Luke to serve Wyoming and this great Nation. We are forever thankful.

TRIBUTE TO PATRICK TYRRELL

Mr. BARRASSO. Mr. President, today I recognize the distinguished career of Pat Tyrrell. After more than 18 years of service, Pat is retiring as Wyoming's longest serving State engineer.

A Wyoming native, Pat grew up in Cheyenne. He attended the University of Wyoming in Laramie where he obtained a B.S. in mechanical engineering and an M.S. in civil engineering. He began his time in public service in 2001 when Governor Jim Geringer appointed Pat as Wyoming's State Engineer. During his tenure, he served under four Governors and became well known in the State, region, and Nation as an expert on all matters related to water resources.

Established under Wyoming's Constitution, the State engineer serves as the chief water official in Wyoming. With Wyoming situated astride the Continental Divide, the State provides the headwaters for four major river basins in the Western United States.

Charged with the regulation and administration of the water resources in Wyoming, Pat's duties as State engineer ranged from overseeing the permitting and adjudication of water rights, regulation of the use of water under the doctrine of prior appropriation, and representing the State on numerous boards, compacts, and commissions. These included Wyoming's commissioner to the Upper Colorado River Commission, the North Platte Decree Committee, Western States Water Council, and the Colorado River Salinity Control Forum. He often served in leadership roles and worked in cooperation with the other 17 Western States to manage and develop water resources.

Pat is known for his balanced approach to water resource management, ensuring compliance with the law while also protecting the interests of Wyoming water users. His expertise and influence were instrumental in resolving decades-long problems, such as the Big Horn General Adjudication.

As State engineer, he waded through thousands of water rights in the Big Horn Basin to bring clarity and certainty to Federal, Tribal, and State interests in the area and ultimately saw the end to a 37-year lawsuit. Pat's reflection on this case was emblematic of his philosophy to water management: "If we can move water without any ill effect to existing users, we can make changes. But we need everybody at the table."

Shortly after I joined the U.S. Senate. I experienced this philosophy firsthand. It was during a critical point in passing the Craig Thomas Snake Headwaters Legacy Act that Pat met in my office with key players who were negotiating the final language of the bill. With his calm demeanor and extraordinary understanding of Western water law, he was able to provide clarity to the meaning of certain text in the bill and assuage all in the room of the practicality of what the text said and what was contemplated. Shortly thereafter, agreement was reached, and the bill was signed into law. It became clear to me that one of Pat's greatest skills is he builds trust through his knowledge of the law and how it is applied and is able to accurately articulate how that application will or will not impact people's lives.

Pat has used this philosophy in interstate water negotiations. Known as the senior statesman on the river, Pat has been instrumental in many of the key decisions related to management of the Colorado River. Time after time, Pat has sought cooperation and coordination to balance the various needs and demands on the river. From hydropower production and ecosystem protection, to water storage and water delivery obligations, Pat has been instrumental in crafting creative solutions to ensure all needs are met.

In the face of nearly two decades of drought in the Colorado River basin, his expertise has been invaluable. He was instrumental in implementing the river's 2007 Guidelines and has been intimately engaged in development of the current Colorado River Drought Contingency Plan, which is currently being debated in Congress. As Wyoming's representative on the river, Pat focused on ensuring the needs met by the Colorado River today will be maintained for future generations.

In the same way Pat has looked out for Wyoming's future water needs, he has also sought to care for the development of Wyoming's future leaders. Late last year, he and his wife Barbara established a scholarship fund at the University of Wyoming to provide future students an education in engineering. Expertise and education in water management in States like Wyoming is invaluable, and we can only hope for more leaders like Pat.

Pat's service has reached every corner of the State. The history books will note his involvement in the 2001 Modified North Platte Decree, the Yellowstone River compact, which involved an 11-year Supreme Court lawsuit with the State of Montana, and many other

accomplishments, but those who worked with him will remember and hopefully carry on his gentle nature, deliberate thinking, and dedication to the law.

I invite all members of the Senate to join me in congratulating Pat in his retirement, wishing him well and his family much success in the future.

TRIBUTE TO DENISE LOWERY

Mr. ALEXANDER. Mr. President, along with my colleague, the ranking member on the Health, Education, Labor, and Pensions Committee, Senator MURRAY, I wish to pay tribute to Denise Lowery. Ms. Lowery is a non-designated employee on the HELP Committee staff and is retiring at the end of this month after almost 16 years of distinguished service to the HELP Committee.

Ms. Lowery has served as editor for the committee since 2003, compiling and sending to print all our committee reports and materials for the CONGRES-SIONAL RECORD.

Ms. Lowery is well regarded by all Members and staff of the committee, having proven her professionalism, courtesy, and substantial expertise over almost 16 years. Without the support of Ms. Lowery and the rest of the nondesignated staff, the committee could not accomplish the important work the American people expect us to get done on their behalf. I, the ranking member, and the rest of the committee's members want to recognize Ms. Lowery for that tremendous contribution to the Committee as she exits her time in the Senate.

I wish Ms. Lowery the best and hope retirement from the Senate will allow her time for hobbies such as working on home improvement projects and spending time with her friends and family.

I would like to yield now to my colleague, the ranking member, Senator MURRAY, for her remarks.

Mrs. MURRAY. I thank Chairman ALEXANDER and join him in commending Ms. Lowery for her many years of dedicated and outstanding service to the HELP Committee, the Senate, and the American people. I greatly appreciate the sacrifice that Ms. Lowery has made over the past 16 years in assisting the HELP Committee by applying her expertise in editing, printing, and memorializing our important work. We wish her all the best in her well-deserved retirement.

We hope our colleagues will join us in thanking Ms. Lowery for her service.

ADDITIONAL STATEMENTS

50TH ANNIVERSARY OF THE ANTON ART CENTER

• Mr. PETERS. Mr. President, today I wish to recognize the 50th anniversary of the Anton Art Center in Mount Clemens, MI. I appreciate the oppor-

tunity to recognize the efforts of the Anton Art Center to fulfill their mission to enrich and inspire people of all ages through the arts.

The Anton Art Center was established in 1969 by three members of the Mount Clemens Art Association: Bea Wright, Gretchen Thompson, and Phyllis Wickens. Upon its founding, they took over occupancy of the then Mount Clemens Public Library to save the historical building from demolition. The library was built by Andrew Carnegie in 1903 and opened in 1904 and was one of approximately 2,500 libraries that Carnegie funded throughout the world. The center converted the interior to include three galleries, an art studio and meeting area, a pottery studio and kiln room, and offices. In 2006, local businessman Gebran Anton led a fundraising effort to expand the building with the addition of a gift shop, an increase in gallery space, and more classroom space. It is fitting that the center should occupy a Carnegie Library, a beautifully designed building that is now listed in the State of Michigan historic register.

The goals of the Anton Art Center are to present a wide array of programming to appeal to diverse audiences, provide support for the arts, and become a focal point for arts programming and work toward inclusion, diversity, equity, and access in all they do. Through its many programs, the Anton Art Center has become a leading advocate of the arts and artists in Macomb County and throughout the surrounding area. In addition to traditional artist exhibitions, the center offers a multitude of programs for artists to showcase their work to the public. There are multiple juried statewide competitions, as well as two annual events that include the ART! Macomb Art Fair and holiday market. The center's gift shop offers yet more opportunity for the community to support local artists. The center also supports the aspiring artist inside many of us by offering adult and child classes in many mediums including clay, drawing, mixed media, photography, weaving, and watercolor.

The Anton Art Center also serves as the Region 10A Re-granting Agency for the Michigan Council for Arts and Cultural Affairs, MCACA. As such, they award mini-grants to nonprofit organizations, schools, municipalities, and individual professional artists in Macomb and Oakland Counties in support of arts and culture programming and professional or organizational development. They also provide technical assistance to organizations applying for funding through this program.

I am pleased to rise today to ask my colleagues to join me in recognizing the 50th anniversary of the Anton Art Center. They have been a staple of the arts and cultural scene in Macomb County for half a century, and I wish them continued success in the years to come.

TRIBUTE TO SANDRA CARAWAN

• Mr. RUBIO. Mr. President, today I recognize Sandra Carawan, the Gilchrist County teacher of the year from Bell Elementary School in Bell, FL.

Sandra is dedicated to her students, working closely with them each day to help solve their problems. Her colleagues describe her as a tremendous asset and someone who will help in any way she can, whether as a teacher or with administrative duties. She was named Bell Elementary School's teacher of the year in addition to receiving the award for the district.

A fifth grade exceptional student education teacher, Sandra acts as the lead teacher for her grade level. She also serves as Bell Elementary School advisory chair, safety patrol sponsor, district 21st century evaluator/coordinator, a positive behavior support team member, and a data evaluator for the entire Gilchrist County School District. She graduated from Saint Leo University, earning her bachelor's degree in Elementary Education in 1999 and her master of education degree in 2007

I convey my best wishes to Sandra for her dedication to her students and school. I look forward to hearing of this continued success.●

TRIBUTE TO LILLY CHAPPELL

• Mr. RUBIO. Mr. President, today I recognize Lilly Chappell, the Bradford County teacher of the year from Southside Elementary School in Starke, FL. Lilly has enjoyed spreading her passion for learning to others throughout her whole life. She has spent 11 years with the Southside Parent Teacher Organization, helping to build a playground and sound system for students, directing musicals with more than 250 students, and making herself available for a variety of other extracurricular events throughout the school year.

Lilly has taught in Bradford County for 20 years, beginning as a writing coach. She has served at Southside Elementary School as the lead teacher in fourth and fifth grade, the K-5 county gifted instructor, 5th grade English language arts, and as a history teacher. She attended the University of Florida and University of North Florida, studying public relations and elementary 1-6 education. As a result of her teaching and mentoring over the years, several of the students she previously taught have now become her colleagues.

I extend my sincere thanks and appreciation to Lilly for her years of dedication to her student. I look forward to hearing of her continued good work in the coming years.●

TRIBUTE TO NICOLE KENNGOTT

• Mr. RUBIO. Mr. President, today I honor Nicole Kenngott, the Pinellas County teacher of the year from Plumb Elementary School in Clearwater, FL.
